## HIGH QUALITY, HIGH SPEED

Save valuable time and money with the Canon Laser FAX-L100's Super G3 modem. The high-speed 33.6 Kbps modem enables fax transmission speeds of up to 3 seconds per page, which means little down time and less time spent online, so you cut call costs. With razor-sharp laser printing at 600 x 600 dpi resolution, you can be assured of crisp, clear text and graphics on both your faxes and copies. In addition, Canon's Ultra High Quality (UHQ) imaging technology guarantees text and images are sent and received with exceptional clarity.

## THE VERSATILITY TO FAX AND COPY

With the convenience of faxing and copying from the same compact unit, the stylish, new FAX-L100 will not only save on desk space, it will save your business upfront costs and improve productivity.

## NEVER MISS ANOTHER FAX

The Canon Laser FAX-L100 allows you to fax and copy comfortably with its 150 sheet paper tray. In addition, it boasts a huge fax memory which can store up to 340 pages, to ensure messages aren't lost in the event that your paper or toner runs out.

## MAXIMUM EFFICIENCY

The FAX-L100 provides quick and easy access to frequently used numbers with its Easy Dial Search function. With 15 speed dials, 100 coded dials and sequential broadcasting to 131 locations, you'll easily boost office efficiency. It also features a 30 page Automatic Document Feeder so you can leave your documents to fax and copy themselves and save you valuable business time.

The FAX-L100 is even capable of scanning faxes into its memory while your document is printing. This Dual Access functionality means you don't have to wait to retrieve documents. And you'll save money too, with the all-in-one toner and drum cartridge and toner saver mode.
