Highly productive & durable A4 Mono printer for your office needs.

The RICOH SP 5300DN and SP 5310DN are fast, reliable, and robust printers that will form the backbone of your company's document output. In fact, they're probably both best described as powerful, efficient and durable workhorses. And although they're both compact, these A4 Black and White Printers will quite simply get the job done. An added bonus is their durable design combined with their class-leading reliability – and their powerful controller and advanced processor means superfast output too.

- **Fast Print Speed:** SP 5300DN (50ppm) and SP 5310DN (60ppm)
- **Advanced controller and high speed processor** delivers significant workflow enhancements, increasing device performance and reducing processing times
- **Small Foot Print** that fits in almost any office environment
- **First scheduled maintenance at 500,000 prints*** provides exceptional device reliability
- **Eco friendly with low power consumption:** Low TEC and compliance to Blue Angel Mark (BAM) accreditation

Robust and durable device meeting almost every office print requirement.

All the power, with added control.

With a powerful Intel 1.46 GHz processor and 2 GB memory, you can complete even the most complex of print jobs with the minimum of fuss. And because all this technology is working in the background, all you see is your productivity, speed and output increasing – which helps your business become even more efficient.

Just keeps on printing.

When your printers are always in use, you need to have a machine you can rely on. And that's why both these models are advanced enough to give you all the features you want, but robust enough to simply get every job done. They're also both designed to have almost no maintenance – allowing you to keep your business moving.

Packed full of features.

Thanks to their compact design, you don't have to worry about space, or set aside a specific area in the office. Their small footprint disguises just how much they can do – and these printers can be located almost anywhere. You can even print directly from your phone or tablet, or direct from mainframes using the IPDS option.

Low energy. Lower costs for your business.

Ricoh puts the environment first and helps you do that too. So these printers offer the best combination of technological features, value for money and also help you reduce your energy costs.
